## FONT EMBEDDING TIPS:

1. Font files (.ttf) must be accessible to your program

2. Use absolute paths or relative paths from your program location

3. Embedded fonts increase PDF file size

4. Always check AddTTFFont() error for missing fonts

5. Have fallback fonts ready for production

Common font locations:

• Windows: C:/Windows/Fonts/

• macOS: /Library/Fonts/ or /System/Library/Fonts/

• Linux: /usr/share/fonts/ or ~/.fonts/
